

## NEW PRODUCTS 2018

We are proud to announce the addition of two new products to the ACCUTRACK SYSTEMS lineup. Over the past year we have seen a significant increase in demand for a 1-1/2" panels as well as 1/8" reveals. Through continued R&D we have developed these two new products to better serve the industry. We are happy to introduce the new 1-1/2" square edge ACCUSNAP and 1/8" Reveal Midwall. Both are currently in stock and available for order immediately.

### 1-1/2" ACCUSNAP

1-1/2" ACCUSNAP adds both functionality and appeal. This product was created to fit the desire and need for a panel system with a thickness between 1" and 2". With NRC of 0.90, the added acoustic benefit over a 1" panel and reduced thickness when compared to a 2" panel allows for a creative design aspect both functionally and visually. Currently available in square edge only.

### 1/8" REVEAL MIDWALL

The 1/8" Reveal Midwall offers a simple solution to provide the desired reveal many designers are looking for today. By using this mounting device it will drastically reduce time on site laying out reveals and splitting typical ACCUTRACK Midwall. Unlike typical Midwall, this piece is black and adds to the shadow affect that designers are looking for when specifying the reveal. The 1/8" Reveal Midwall can be paired with any of the ACCUSNAP products.
